The screenshot shows the eTwinning HR_ambasadori group page. At the top, there is a blue header with the Erasmus+ logo, a grid icon, and the text "ETWINNING HR_AMBASADORI". Below the header, the eTwinning Groups logo is displayed, followed by a navigation menu with links: HOME, PAGES, MATERIALS, and FORUM. The main content area features the group title "eTwinning HR_ambasadori" in orange. Below the title is a photo of a group of people standing in a snowy outdoor setting. To the right of the photo, there is a text block describing the group's resources and activities.

U grupi su svim eTwinnerima dostupne upute za korištenje digitalnih platformi, radni materijali te web alati koji se mogu koristiti u nastavi. Nadalje, u grupi su dostupni projektni i video materijali kao dodatna podrška u odgojno-obrazovnom procesu u provođenju nastave na daljinu kao i kronologija događanja prilikom provođenja nastave na daljinu u Hrvatskoj od 16. ožujka 2020. godine.

Floods are a big problem and they are happening more frequently than they used to in the past few years. Especially The Sava River and the cities near sea.

Single-use plastic

litter
(trash or other things on the ground)
Log in to save & learn this word!

With the amount of harmful plastic (trash or other things on the ground) in oceans and seas growing ever greater, the (related to Europe) Commission is proposing new EU-wide rules to target the 10 single-use plastic products most often found on Europe's beaches and seas, as well as lost and left alone fishing gear.

Together these make up/be equal to 70% of all marine (trash or other things on the ground) items. The new rules are (fair in amount, related to something else/properly sized compared to something else) and custom-designed to get the best results. This means different measures will be applied to different products. Where other choices are easily available and low-priced, single-use plastic products will be blocked/forbidden from the market. For products without straight-forward other choices, the focus is on limiting their use through a national reduction in consumption; design and labelling needed things and waste management/clean-up responsibilities/duties for producers. Together, the new rules will put Europe ahead of the curve on an issue with worldwide effects/results/suggestions.
