

ETWINNING ANNUAL CONFERENCE 2025

CELEBRATING WHAT UNITES US

23-25 October 2025

Draft concept note

THEME

The 2025 eTwinning hybrid annual conference will celebrate and explore citizenship education (the 2024–2025 theme) and introduce the new 2025–2026 theme, 'Skills for life'. This event will engage teachers, schools and education stakeholders from across Europe in discussions, workshops and networking opportunities centred on how education fosters democratic participation, European values and essential life skills.

OVERALL GOALS

- Empower participants to become eTwinning 'power users' (eTwinners who have the ability, skills and enthusiasm to engage their colleagues and involve them in eTwinning).
- Strengthen participants' sense of belonging to the eTwinning community.
- Make participants familiar with the topics of the conference and how they can be used in educational contexts.

ACTIVITIES

1. **Celebrate active citizenship:** Wrap up the 2024–2025 theme by showcasing best practices, research and policies that promote active democratic participation and European values in education.
2. **Launch 'Skills for life':** Introduce the 2025–2026 theme through practical insights into mathematics, digital, literacy, science and citizenship education.
3. **Facilitate teacher collaboration and professional development:** Provide spaces for educators to exchange ideas and strengthen eTwinning projects.
4. **Disseminate best practices:** Highlight outstanding eTwinning practices that successfully integrate active citizenship and life skills.

TARGET AUDIENCES

Depending on the type of attendance:

- Onsite participants: 150 eTwinning educators (80% new users, 20% experienced power users);
- Online participants: Open to all eTwinners through a registration process, with livestreamed sessions available to the broader public.
